

CURRICULUM

*Francescopaolo Mattioli was born in Genoa, where he attended the Classical Lyceum Andrea D'Oria and where he later took his university degree in Medicine and Surgery, graduating with full honors.*

*He subsequently attended the Scuola Allievi Ufficiali Medici in Florence, after which he assumed his first post in the surgical ward of the Military Hospital in Genoa.*

*Already Student Fellow of the Chair of Patologia Speciale Chirurgica of the University of Genoa, he became Assistant in different surgical divisions under the guidance of illustrious mentors such as Mario Agrifoglio and then Mario Battezzati, holding throughout his post-graduate career the progressive positions of Volunteer, Interim and finally Deputy Assistant.*

\*\*\*\*\*

*Following his residency and post-graduate degree in surgery (awarded with full honors), as a result of his noteworthy scientific output he was conferred through national competitions the qualification of Libera Docenza in Patologia Speciale Chirurgica e Propedeutica Clinica, and in Clinica Chirurgica Generale e Terapia Chirurgica.*

*Having also devoted himself to the study of pathological anatomy, here also compiling an accomplished scientific production above all on morphology (macroscopic, microscopic, histochemical, etc.), he was once again conferred the qualification of Libera Docenza in Anatomia e Istologia Patologica.*

\*\*\*\*\*

*Further to national competitions he first became Assistant Professor of Semeiotica Chirurgica of the University of Genoa, and thereafter Full Professor in the same subject. He subsequently assumed the titles of Full Professor in Patologia Speciale Chirurgica e Propedeutica Clinica and Full Professor in Clinica Chirurgica e Terapia Chirurgica, all chaired positions of the Medical School of the University of Genoa. With these conferrals, he also became Director of the respective surgical divisions.*

*He has been Director of the Istituto Policattedra di Clinica Chirurgica e Terapia Chirurgica.*

\*\*\*\*\*

*He has also held numerous teaching appointments in residency programs (General Surgery, Anesthesiology and Intensive Care, General Surgery [oncology track], Gynecology and Obstetrics).*

*He teaches in the following post-graduate schools:*

*Gastroenterology and Surgical Endoscopy, Pediatric Surgery, and Surgery of the Digestive System and Surgical Endoscopy as Director.*  
\*\*\*\*\*

*He is Full Member, and in many instances Founding Member, of numerous scientific societies (see attached listing).(\*)*

*He has been President of the Ligurian Society of Surgery and the Italian Society of Surgical Physiopathology, and sits on the Editorial Board of a number of surgery journals.*

*He is author of numerous scientific publications and conference presentations.*  
\*\*\*\*\*

*His activity as a surgeon, comprising operations, covers:*

- *thoracic surgery (esophagus, lung, breast);*
- *abdominal surgery (liver, gallbladder, biliary tract, pancreas, spleen, gastroenterological tract, colon-rectum, etc.);*
- *vascular surgery (aorta and arterial/venous systems of the lower limbs);*
- *endocrinological surgery (thyroid, parathyroid, adrenal glands, female reproductive system).*

\*\*\*\*\*

*He is winner of:*

*§ the Giovanni XXIII Award, of the Italian League Against Cancer;*

*§ the Medal of Merit of the Collegium Biologicum Europa, for his experience in gastro-esophageal physiopathology;*

*§ the Medal of Merit of the Città di Genova.*

*He has three children, all physicians (head and neck surgeon, pharmacologist, pediatric surgeon).*

*His hobbies include the mountains, music and gardening.*
